

CA Nocona

Nocona is a black gelding with a beautiful white blaze and three white feet. He has some of the most beautiful thick black mane and tail that you could ever ask for. Personality wise, he is more like a teddy bear horse. I have been through most of Parelli ground games with him, have taken him on trailer rides and even saddled him a few times to drive line. This horse has great potential and has that flashy look. Asking price is \$2500.00
